Kitting

Portafix supply kitted parts to its customers to increase productivity and to save time and money. Working to client needs, Portafix can provide kitting specific to requirement, including stage-specific, pre-bagged or boxed kits.

Kits pre-prepared for specific build stages...

Production efficiency can be improved by having the exact parts ready for any given build stage by eliminating part and quantity picking errors as well as simplifying your inventory.

Everything you will need in a tool box!

- Tailored to suit individual requirements
- Labels clearly identify individual parts
- Dividers separate parts to reduce contamination
- Practical, efficient & easy to store

Products & Services

Let us manage your stock!

Portafix can install tailored systems on or near to your production lines. This allows your workforce to obtain essential items critical to your builds without the need to perform time consuming administrative tasks to do so. There are a number of benefits to installing a Portafix system:

CERTIFICATION
Quality Management System

We believe in offering industrial fasteners of the highest quality and are committed to offering our customers the best possible solutions. That is why we operate a Quality Management System accredited to ISO 9001:2015 & AS 9120B.

- Increased efficiencies
- Reduced admin costs
- Account management & reports
- Daily/Weekly deliveries
- Supplier reduction
- Improved customer service
- Condensed storage
- Assured product supply
